SLEEK KONCEPTS

Sleek Koncepts is a contemporary interior design brand focused on creating refined, functional, and thoughtfully designed residential spaces. Specializing in modular interiors for mid-to-high-range homeowners, the brand brings together modern aesthetics, smart space planning, and practical detailing to transform houses into sophisticated and comfortable homes.

This brand guideline establishes a consistent visual language for Sleek Koncepts, ensuring that every touchpoint reflects its core values of sleek design, quality craftsmanship, modern living, and timeless elegance.

Primary Logo.

Usage: The primary logo is the signature of your brand. This should be used most frequently when space allows for it. Can be situated on welcome backdrops, folders, stationery, signage etc.

Breakdown: Simple yet significant, this primary logo is letter-driven, elegantly reflecting your brand's core aesthetic.

Clear Space: This shows the minimum distance between the logo and other graphic elements. Always allow for a minimum clear space of 85px (or your logo duplicated as shown to the right).

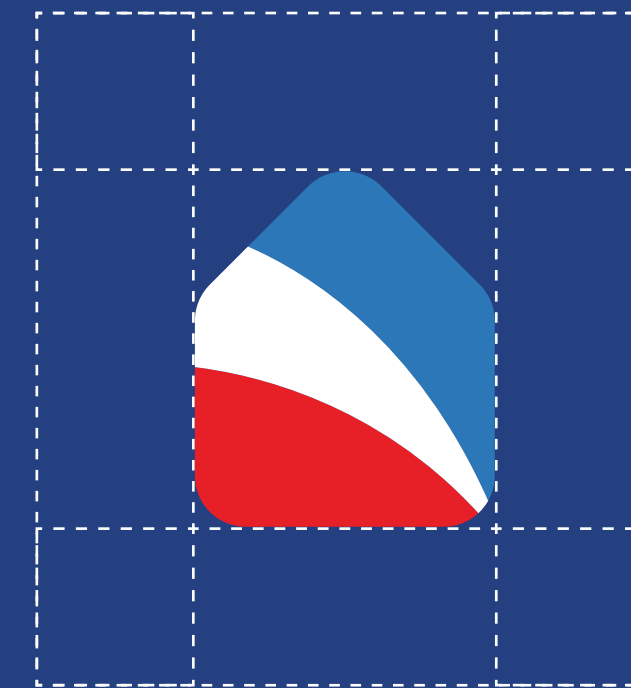

Logo Mark.

Usage: Logo Marks are a simplified version of your primary logo. This could mean an icon/symbol that can be used in compact spaces like social media profile pictures, stamps, favicons etc. It's best to use this when your other variations simply won't fit.

Breakdown: An intelligently made, distinctive mark that ties in the given logo variants whilst honestly depicting the nature of the brand.

Clear Space: This states the minimum distance between the logo and other graphic elements. Always allow for a minimum clear space of 85px as shown to the right.

Colours.

CMYK:

Stands for Cyan, Magenta, Yellow & Key (black). These are the colours used in printed materials.

RGB:

Stands for Red, Green & Blue colours. This is mainly used for web and digital design.

HEX Codes:

This colour code is used on-screen and for web design.

Primary Colour:

These colours should be the most dominant shade and take up around 60% of the design space.

Secondary Colour:

These colours should not be as much as the primary colour (30%).

Accent Colour:

These are the bright colours made to stand out within the design and should use around 10% of the design space.

Logo Variations.

Black

Greyscale

Greyscale

Black

Logo Don'ts.

Don't add shadow

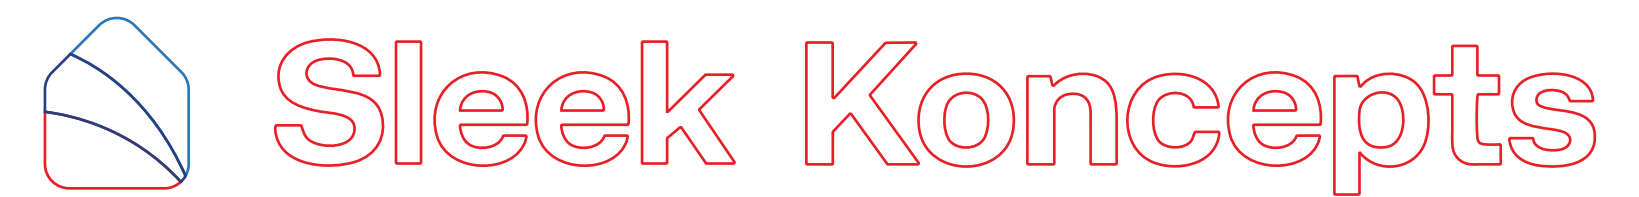

Don't Stretch/Skew

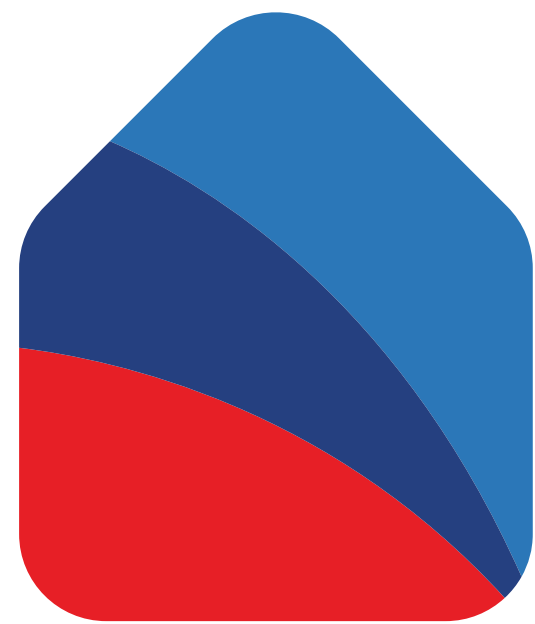

Do't blur the logo

Don't add Stroke

Logo Assets.

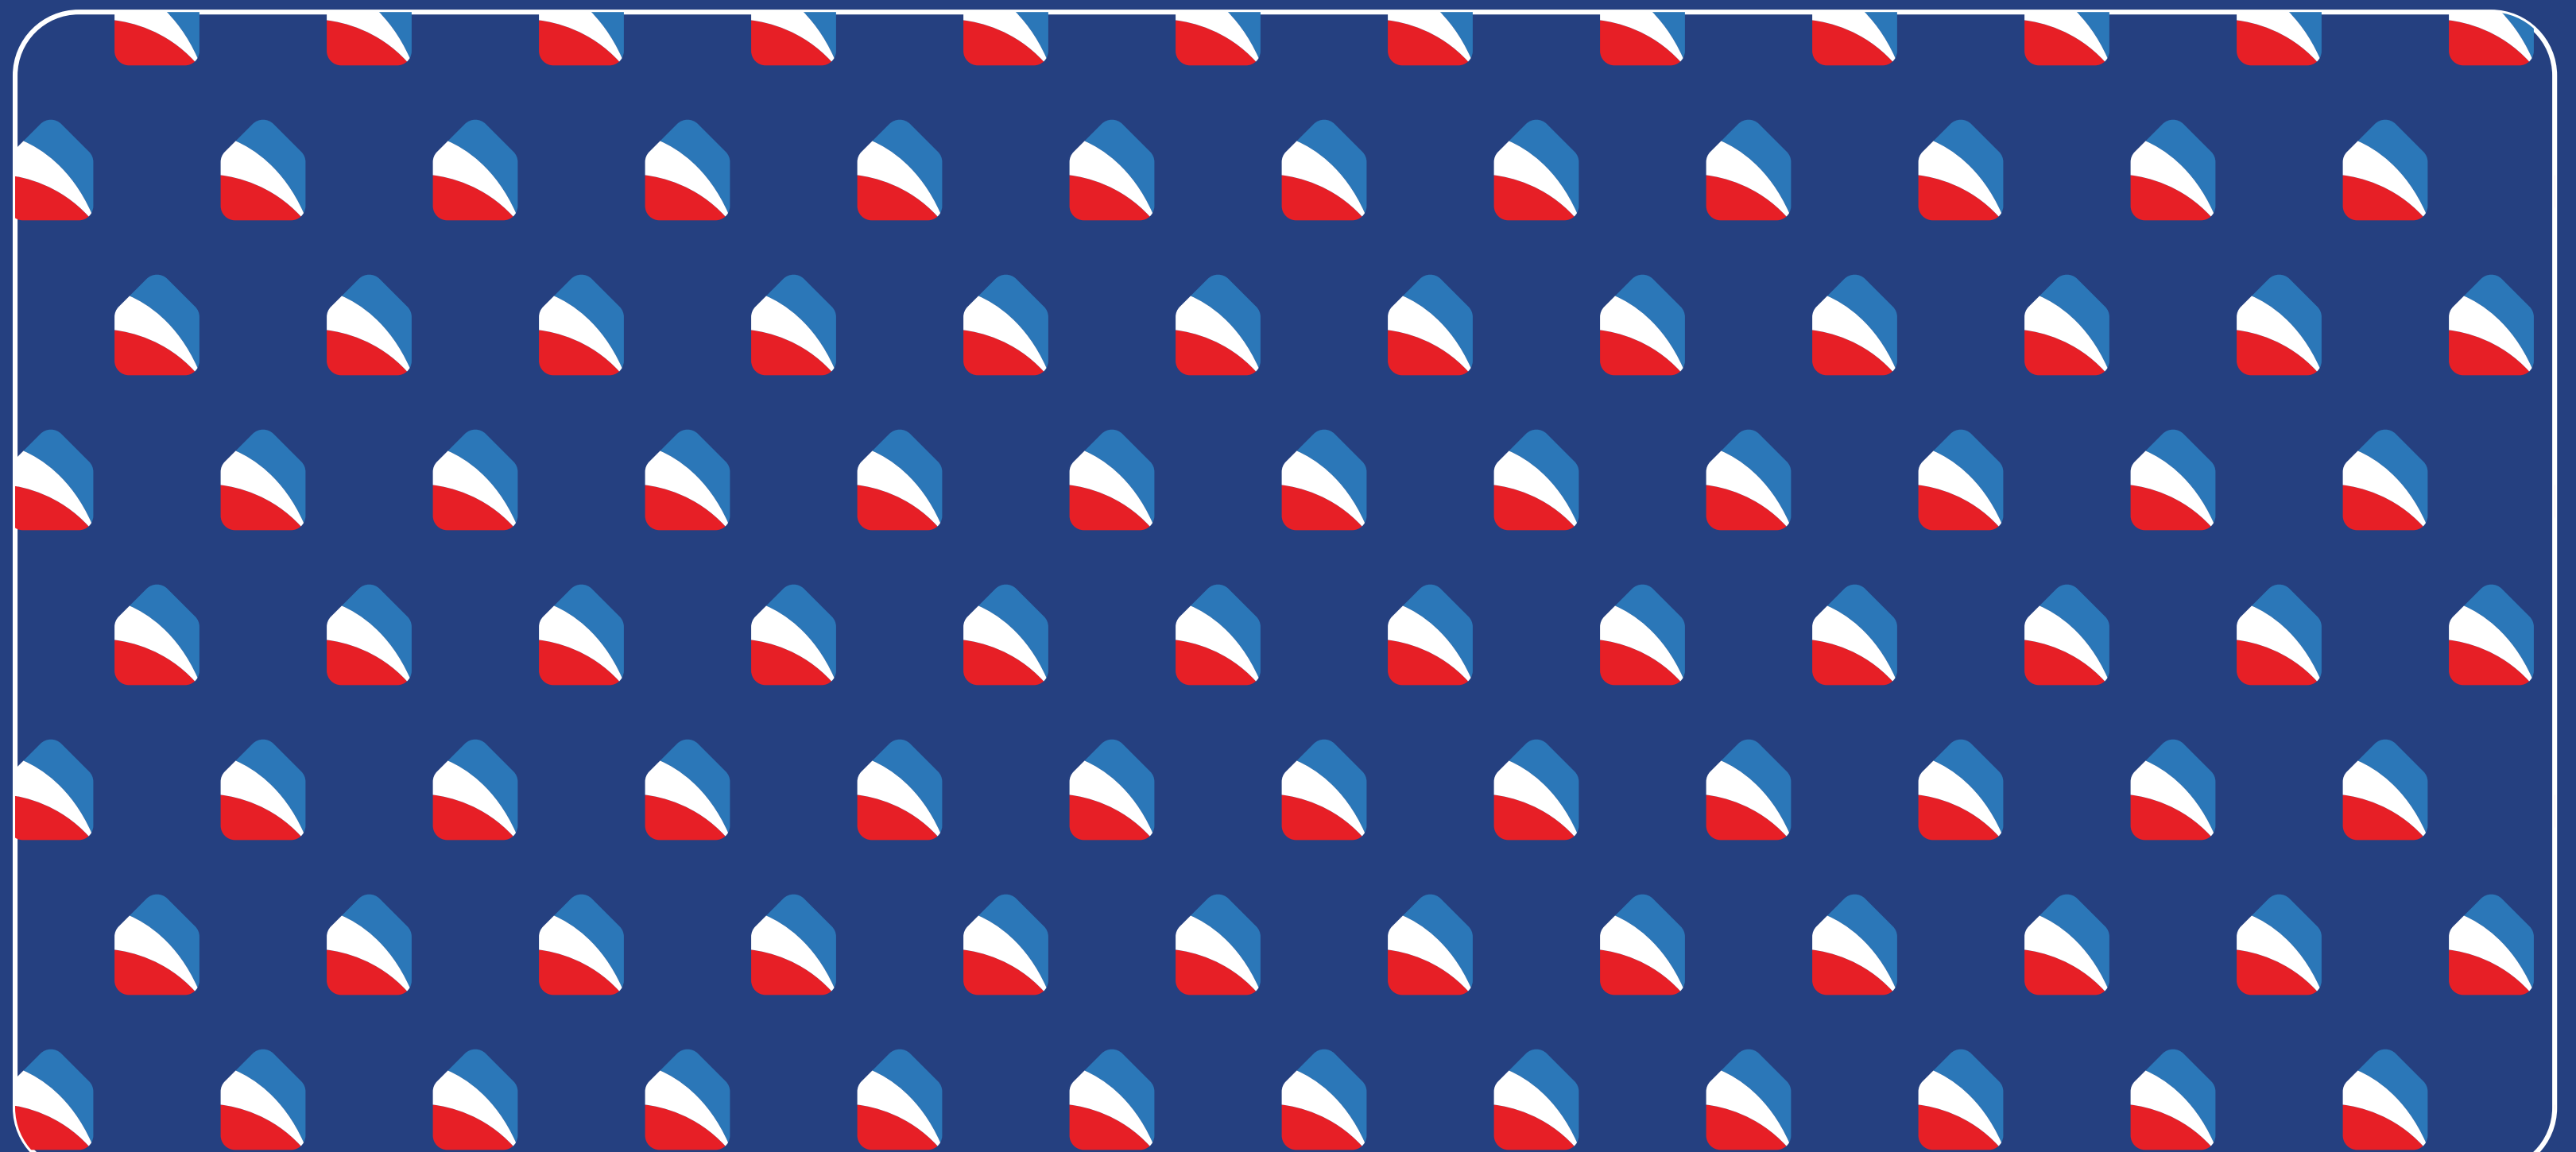

Asset Usage:

These can be used as a brand pattern or individually to add personality to your design.

Brand Pattern – Add this to backgrounds or an area to grab attention. Avoid putting anything over the pattern as it will appear too cluttered.

Individual Illustrations – Scatter these into your design or use them as a focal point.

Your assets
consist of
natural,
fun-flowing
shapes &
symbol
elements.

Use your brand assets on:
